EYES

EXECUTIVE SUMMARY

Neural trace analysis indicates an optimal reputational standing. Minimal exposure detected across primary connectors. We identified 2 unfulfilled commitments in your Gmail 'Actionable' thread, but overall sentiment balance remains highly positive (88%). Your GitHub activity shows high contribution density with no security fractures detected in public repositories.

2471	88%	2
MENTIONS DISCOVERED	SENTIMENT BALANCE	UNFULFILLED COMMITMENTS

⚠️ **HEADLINE FINDING: You have 2 unfulfilled commitments referenced in active communications.**

METHODOLOGY

Risk score = ((negative_mentions × 2) + (neutral_mentions × 0.5) + (unfulfilled_commitments × 3)) ÷ total_mentions × 10. Recency weighting: last 30 days (1.0), last 6 months (0.5), older (0.2).
